

### Ajax Fair & Square Deal

#### Save a sweet 30% off the List Price

For a limited time you can save 30% from the list price of the top selling products in the Ajax range. There are no minimum order quantities or onerous conditions associated with this special offer.

It is simply an ideal opportunity for you to stock up on your favourite brand of laboratory chemicals and stretch your budget further in the run home to the end of the financial year.

As an added incentive you will receive an Ajax desk organiser when you purchase \$300 of the chemicals featured or a Lomb golf umbrella when \$600 worth or more of the products featured are purchased in the one transaction at the special promotional price.

#### Conditions

This offer is strictly subject to the availability of the desk organisers and golf umbrellas.

Quote PROMO-UMB for the umbrella.

All items purchased must be included in the product promotion list and must be purchased at the special promotional price.

Quote PROMO-DESK-AJAX for the desk organiser.

Items must be purchased in one transaction. The promotional gift must be requested on the order or at the time an order is placed.

### Your Source for Research and Fine Chemicals

#### Before you search the world for a rare chemical! Turn to the experts who already have.

Pfaltz & Bauer has supplied rare and fine chemicals for use in laboratories, scale up and manufacturing for over 100 years. The current online catalogue contains more than 25,000 research and laboratory chemicals.

Lomb Scientific is your Pfaltz & Bauer partner in Australia and New Zealand. Turn to Lomb when you have limited time to source those rare chemicals you need and we will work with the experts in Pfaltz & Bauer to source the chemicals on your behalf.

### Conductivity Control Standards

Conductivity measurements are used daily as the basis for critical decisions. It is vital for analysts to have full confidence in the quality of their measurements to ensure that the decisions based on these measurements are correct.

Today, more than 2,000 laboratories world-wide are using Reagecon's Conductivity Standards as CONTROL STANDARDS.

#### Benefit and Feature Summary

- Comprehensive Range of Products
- Quality Production
- Comprehensive Certificates of Analysis
- Accuracy
- Stability
- Traceability
- Fully Characterised Temperature Values
- Non-Hazardous
